

Case Study

We Help Your Ideas Grow

Canws is a software development studio that builds scalable, design-led digital products. With 8yrs of expertise and over 300+ projects shipped with a top rating of 4.9★. We combine strategy, design, and engineering to turn complex ideas into market-ready solutions. Fast, reliable, built for long-term growth.

The Challenge

A solution aiming towards helping users find Service provider for their car repairs, service and towing needs.

Also, a platform where these service providers can register and offer their service and earn.

Create service as a user

User has the ability to create services from their mobile application.

Get bids/Offer

All of the service request are displayed and interested providers offers the price to the user out of which user can accept the one most suitable for him.

Earning module

App offers a proper earning module which allow the providers to track their earnings and withdraw on a defined interval.

KYC module for Service providers

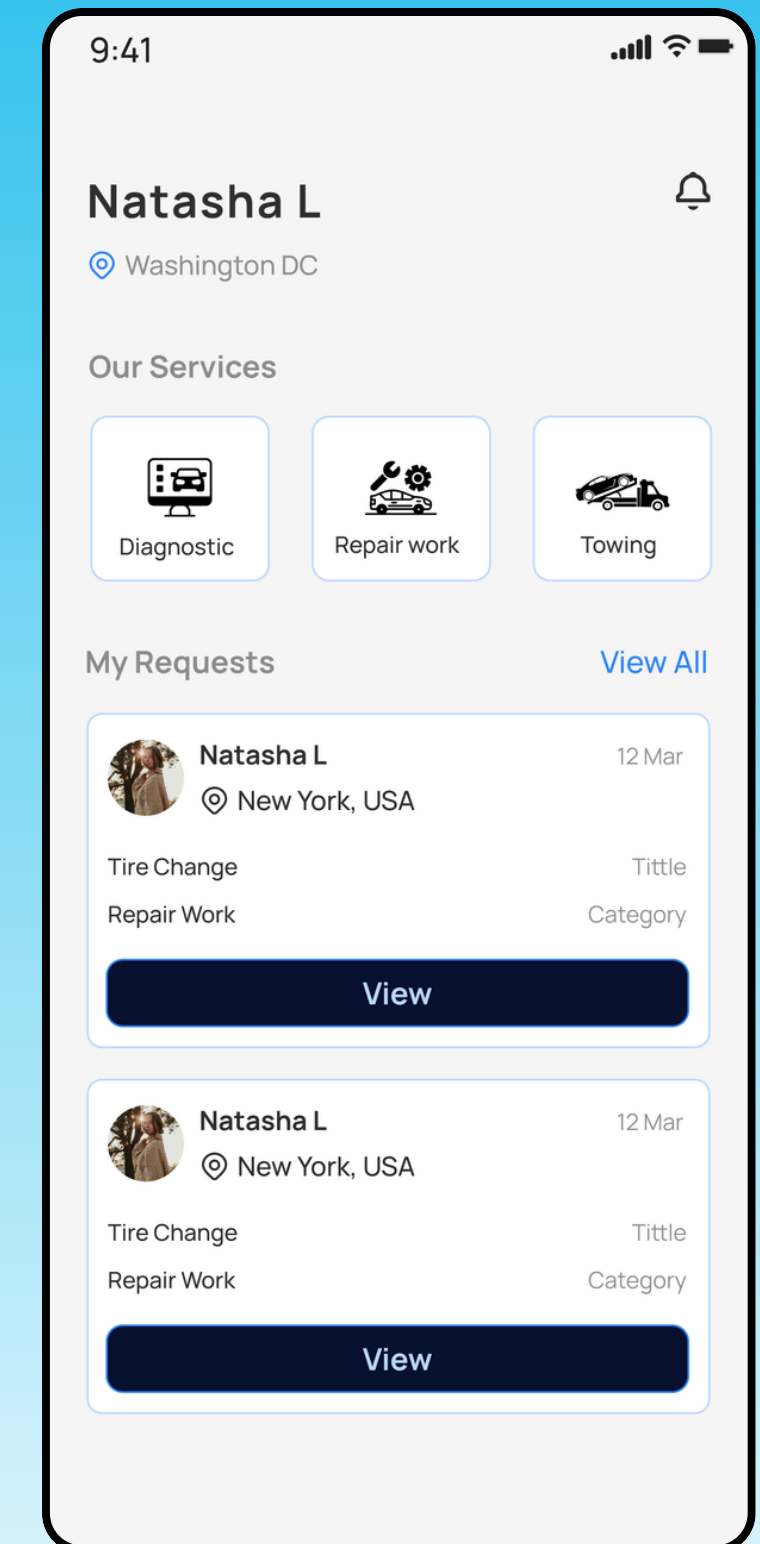

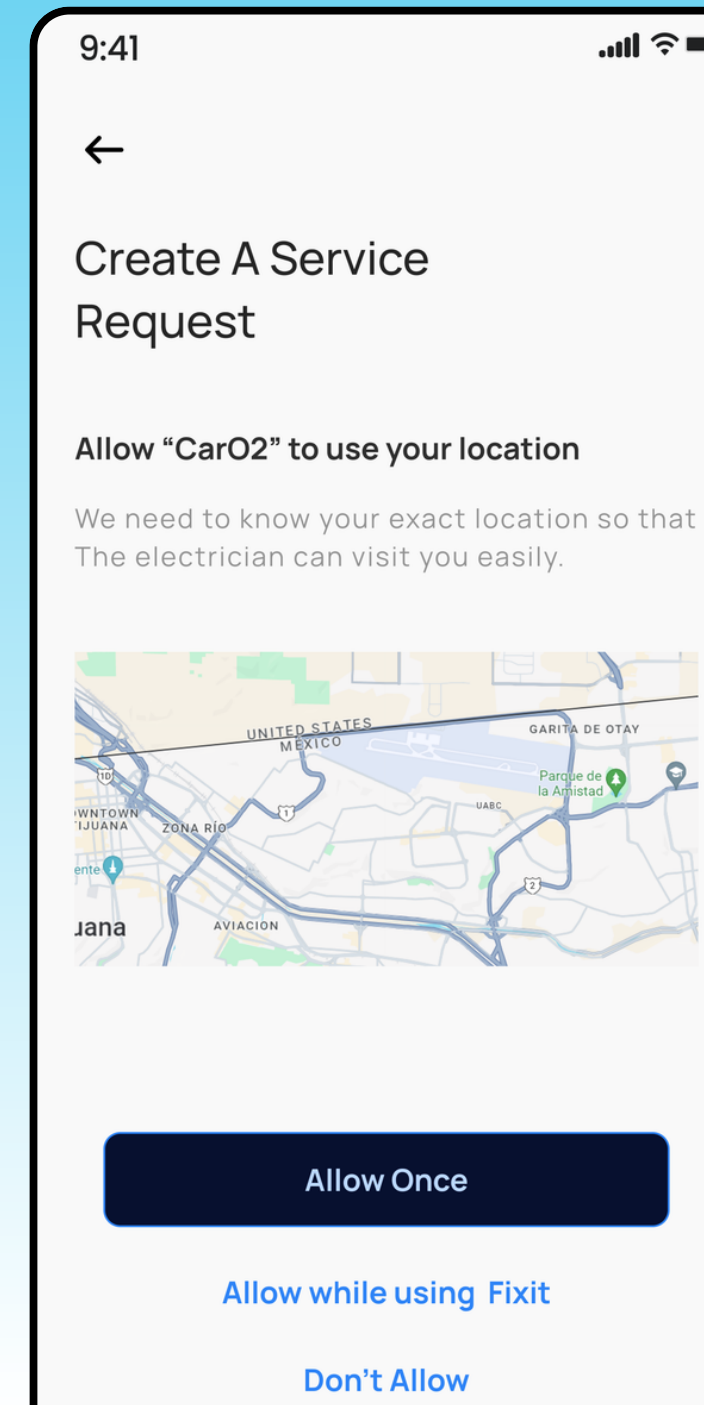

Only verified providers are able to offer their services in the application.

App Design & User Experience

We designed every screen with empathy at the core — from onboarding flows to daily mood check-ins — combining calm aesthetics with science-backed UX.

- User Research & Empathy Mapping
- High-Fidelity UI & Design System
- Mobile-First (iOS & Android)
- Intuitive and easy user experience.

Architecture & Delivery

Car02 represents a comprehensive approach to finding solution for you car needs, bridging strategic architecture with seamless execution. Driven by agile methodologies and a robust delivery framework, the project successfully addressed complex technical challenges to deliver a scalable, high-performance solution. Ultimately, it transformed Car02's operational capabilities, ensuring long-term business agility and measurable value.
